

Led lamps

Low energy, long life and versatile lamps available in a variety of lamp types. Compact in size they offer enormous opportunities to provide excellent accent, display and colour lighting in both commercial and domestic applications.

Features include

- Excellent colour reproduction qualities
- Crisp white light
- coloured, colour changing and UV versions
- Versatile and flexible
- Low energy use
- Long life
- Compact size
- Low volt and mains version
- Eco friendly
- Cheaper whole life cost than standard lamps

Performance LED lamps

Super bright triple high powered LED lamps

3 LEDs, Working Env. Temp: -20 to 40, Lamp Life: 30000hr Mark 5 & Mark 7 lamps comply with Part L1a building regulation. planningportal.gov.uk

Whilst we endeavour to include as many products as we can within the lamp guide, the market is continually evolving. So if you require an LED product which isn't shown within this guide please contact your local Stearn branch.
